

## Contents

Preface: the Second Working Party	vii
<b>Section 1: Introduction</b>	
J. S. GRIFFITHS & R. J. G. EDWARDS: The development of land surface evaluation for engineering practice	3
<b>Section 2: Techniques in land surface evaluation</b>	
J. H. CHANDLER: Terrain measurement using automated digital photogrammetry	13
J. H. CHARMAN: Desk studies	19
J. H. CHARMAN, P. J. CAREY & P. F. FOOKES: Engineering classification for environmental performance	23
C. N. EDMONDS: Predicting natural cavities in chalk	29
J. S. GRIFFITHS: Engineering geological mapping	39
G. J. HEARN & J. S. GRIFFITHS: Landslide hazard mapping and risk assessment	43
E. M. LEE: Geomorphological mapping	53
P. NATHANAIL & A. SYMONDS: Geographical information systems	57
P. J. PHIPPS: Terrain systems mapping	59
<b>Section 3: Case studies in land surface evaluation</b>	
R. J. ALLISON: Surface and groundwater resources survey in Jordan	65
G. P. BIRCH: Mapping for high pressure gas pipelines in South Wales	73
G. P. BIRCH: Rapid evaluation of ground conditions for the AVE railway, Spain	83
J. H. CHARMAN: Preliminary landslide hazard assessment in remote areas	91
C. N. EDMONDS: Subsidence hazards in Berkshire in areas underlain by chalk karst	97
R. J. G. EDWARDS: Creation of functional ground models in an urban area	107
P. G. FOOKES, E. M. LEE & M. SWEENEY: Pipeline route selection and ground characterization, Algeria	115
P. G. FOOKES & D. T. SHILSTON: Building the geological model: case study of a rock tunnel in SW England	123
J. S. GRIFFITHS: Development of a ground model for the UK Channel Tunnel portal	129
G. J. HEARN: Low-cost road construction and rehabilitation in unstable mountain areas	135
G. J. HEARN, R. BLONG & G. HUMPHREYS: Terrain hazard around the Ok Tedi copper mine, Papua New Guinea	143
G. J. HEARN, I. HODGSON & S. WODDY: GIS-based landslide hazard mapping in the Scotland District, Barbados	151
D. K. C. JONES: Ground conditions and hazards: Suez City development, Egypt	159
D. K. C. JONES: Blowing sand and dust hazard, Tabuk, Saudi Arabia	171
E. M. LEE & D. BRUNSDEN: Sediment budget analysis for coastal management, west Dorset	181
E. M. LEE & R. MOORE: Land use planning in unstable areas: Ventnor, Isle of Wight	189
E. M. LEE & C. F. SAKALAS: Subsidence map development in an area of abandoned salt mines	193
R. P. MARTIN: The design of remedial works to the Dharan–Dhankuta Road, East Nepal	197
P. NATHANAIL: Terrain evaluation for military purposes: examples from the Balkans	205
D. N. PETLEY: Hazard assessment in eastern Taiwan	209
P. J. PHIPPS: Slope instability within a residential area in Cleveland, UK	215
P. J. PHIPPS: Ground models for the design and construction of a high-speed rail link	221
D. T. SHILSTON: Slope stability hazard assessment: Coalport Railway Bridge, Shropshire	227

CONTENTS

	D. T. SHILSTON, N. E. HARRISON & D. J. FRENCH: Evaluation in urban and industrial environments: the Docklands Light Railway Lewisham Extension, London	233
<b>Section 4: Conclusions and Recommendations</b>		
	D. BRUNSDEN & J. S. GRIFFITHS: Land surface evaluation: conclusions and recommendations	241
Index		245
