

## Site Investigation Practice: Assessing BS 5930

### Contents

#### INVITED PAPERS and submitted discussion

Session 1	Planning and Design of Site Investigations . . . . .	1
	J. M. HEAD	
	<i>Discussion</i> . . . . .	6
Session 2	Desk Studies, Air Photograph Interpretation and Reconnaissance for Site Investigation . . . . .	9
	G. WEST	
	<i>Discussion</i> . . . . .	13
Session 3	Field Testing: Interpretation of the Cone Penetration Test . . . . .	17
	C. P. WROTH	
	<i>Discussion</i> . . . . .	19
Session 4	Field Testing: The Standard Penetration Test . . . . .	21
	S. THORBURN	
	<i>Discussion</i> . . . . .	26
Session 5	Sample Disturbance and BS 5930 . . . . .	33
	C. R. I. CLAYTON	
	<i>Discussion</i> . . . . .	40
Session 6	Laboratory Testing: Assessing BS 5930 . . . . .	43
	D. W. HIGHT	
	<i>Discussion</i> . . . . .	52
Session 7	Rock Descriptions . . . . .	59
	A. B. HAWKINS	
	<i>Discussion</i> . . . . .	66
Session 8	Soil Descriptions—Quo Vadis? . . . . .	73
	G. H. CHILD	
	<i>Discussion</i> . . . . .	82
Session 9	Planning Engineering Geophysical Surveys . . . . .	85
	B. W. DARRACOTT & D. M. McCANN	
	<i>Discussion</i> . . . . .	90
Session 10	Water in Site Investigation . . . . .	91
	A. D. M. PENMAN	
	<i>Discussion</i> . . . . .	97
Session 11	Contractual Matters . . . . .	99
	F. H. HUGHES	
	<i>Discussion</i> . . . . .	104
Session 12	The Future of Site Investigation . . . . .	107
	C. CRAIG	
	<i>Discussion</i> . . . . .	109

PRE-PRINTED CONFERENCE PAPERS in alphabetical order by first author

ADAM, C. H. Static Electric Cone Penetration Testing in Shallow Water . . .	113
AMOS, E. M., BLAKEWAY, D. & WARREN, C. D. Remote Sensing Techniques in Civil Engineering Surveys. . . . .	119
ANDERSON, W. F., PYRAH, I. C., & HAJI-ALI, F. Pressuremeter Testing of Normally Consolidated Clays—The Effects of Varying Test Technique . .	125
ATKINSON, J. H. & CLINTON, D. B. Stress Path Tests on 100 mm Diameter Samples . . . . .	133
ATKINSON, J. H., EVANS, J. S. & RICHARDSON, D. Effects of Stress Path and Stress History on the Stiffness of Reconstituted London Clay . . . . .	139
ATKINSON, M. S. & THORNTON, G. D. Groundwater Control in Complex Ground Conditions . . . . .	145
BORRIE, G. W., CIPULLO, A. & MASSEY, J. B. An Assessment of the British Code of Practice for Site Investigations for Hong Kong Conditions . . .	151
CALDWELL, R. A. Recent Techniques in Geophysics with Special Application to Engineering Geology . . . . .	157
CARTER, P. G., PIRIE, R. M. & SNEDDON, M. Marine Site Investigations and BS 5930 . . . . .	163
COATSWORTH, A. M. A Rational Approach to Consolidated Undrained Triaxial Testing . . . . .	167
COX, D. W. & DAWSON, A. R. The Use of Small Scale Trial Compactions for Earthwork Design . . . . .	177
COX, D. W., DAWSON, A. R. & HALL, J. W. Techniques for Site Investigation Using Trial Pits . . . . .	185
DEARMAN, W. R. State of Weathering: The Search for a Rational Approach .	193
DOBEREINER, L. & DE FREITAS, M. H. Investigation of Weak Sandstones . . .	199
EPPS, R. J. A Comparison of Methods of Testing at a Site in London Clay . .	207
ERWIG, H. Correlation of Cone Penetration Tests and Undrained Shear Strength in Alluvial Soils in the Humberside Area . . . . .	213
ERWIG, H. & PATTINSON, J. I. Notes on the Correlation of Cone Penetration Test Results in Weak Chalk at Norwich, Norfolk . . . . .	219
FINN, P. S., NISBET, R. M. & HAWKINS, P. G. Guidance on Pressure-meter, Flat Dilatometer and Cone Penetration Testing . . . . .	223
FRANCIS, S. C. The Limitations and Interpretation of the “Angle of Repose” in terms of Soil Mechanics: A Useful Parameter? . . . . .	235
FROST, F. B. & DUMBLE, J. P. The Application of Ground Conductivity and Offset Wenner Resistivity Soundings to Optimise the Investigation of a 300 ha Site in the West Midlands . . . . .	241

GAMON, T. I. A Comparison between the Core Orienter and the Borehole Impression Device . . . . .	247
GAMON, T. I. & FINN, R. P. Simplified Descriptive Scheme and Classification System for the Logging of Cut Slope Faces . . . . .	253
GRIFFITHS, J. S. & MARSH, A. H. BS 5930: The Role of Geomorphological Techniques in a Preliminary Site Investigation. . . . .	261
HAWKINS, A. B. & OLVER, J. A. G. Point Load Tests: Correlation Factors and Contractual Use. An example from the Corallian at Weymouth . . . . .	269
HAWKINS, A. B. & PINCHES, G. Timing and Correct Chemical Testing of Soils/Weak Rocks . . . . .	273
HAWKINS, A. B. & PRIVETT, K. D. Residual Strength: Does BS 5930 Help or Hinder? . . . . .	279
HURLEY, M. R. & LAVENDER, M. D. Disturbed Sampling Using Reverse Circulation . . . . .	283
MARSLAND, A. The Choice of Test Methods in Site Investigation . . . . .	289
MARTIN, R. P. & HENCHER, S. R. Principles for Description and Classification of Weathered Rock for Engineering Purposes . . . . .	299
MATTHEWS, M. C. & CLAYTON, C. R. I. The Use of Oblique Aerial Photography to Investigate the Extent and Sequence of Landslipping at Stag Hill, Guildford, Surrey. . . . .	309
MEDAT, F. & WHYTE, I. L. An Appraisal of Soil Index Tests . . . . .	317
NORBURY, D. R. The Point Load Test . . . . .	325
NORBURY, D. R., CHILD, G. H. & SPINK, T. W. A Critical Review of Section 8 (BS 5930)—Soil and Rock Description . . . . .	331
PENN, S. The Effective Application of Electrical Conductivity Techniques in Site Investigations for Civil Engineers . . . . .	343
RYS, L. J. & WOOD, I. R. A Question of Priority—Product Before Procurement . . . . .	349
SCARROW, J. A. & GOSLING, R. C. An Example of Rotary Core Drilling in Soils . . . . .	357
SHEARMAN, D. J. Grain and Crystal Size in Rocks: Suggested Terminology . . . . .	365
SIBLEY, M. H. & VADGAMA, N. J. Investigation of Ground Heave at I.C.I. Castner-Kellner Works, Runcorn . . . . .	367
SIDDLE, H. J., JONES, D. B. & WARREN, C. D. The Use of Tracer Techniques to Assess Groundwater Flows in Site Investigations . . . . .	375
SMART, P. Classification by Texture and Plasticity . . . . .	385
SMITH, N. A., WELCH, D. E. & TUNBRIDGE, L. W. Investigation of the Properties of Recent Nile Delta Deposits, Port Said, Egypt . . . . .	391
