## Introduction

EGGERS, M. J. Diversity in the science and practice of engineering geology  

## Urban engineering geology

PRICE, S. J., FORD, J. R., CAMPBELL, S. D. G. & JEFFERSON, I. Urban Futures: the sustainable management of the ground beneath cities  

MARKER, B. R. Urban planning: the geoscience input  

KOZLYAKOVA, I. V., EREMINA, O. N., ANISIMOVA, N. G. & KOZHEVKANOVA, I. A. Study of geology and Carboniferous subcrop topography upon engineering geological mapping of Moscow territory  

TUĞRUL, A., YILMAZ, M., SÖNMEZ, İ. & HASDEMIR, S. Sustainable management of aggregate resources in İstanbul  

## Engineering geology in mining

BAXTER, H. Geophysics, geochemistry and engineering geology: how disciplines combine to improve mine slope design in the Pilbara detrital valleys of Western Australia  

CAMMACK, R. Developing an engineering geological model in the fractured and brecciated rocks of a copper porphyry deposit  

POPE, D., DURAN, A., GROCOTT, G., HOLM, O. & BELL, A. Geological structural controls on stability of footwall slopes: an example from the Bowen Basin, Queensland  

STRANG, D. R. Whitehall quarry, Northern Wedge failure: 22 years of investigation  

## Engineering geology in managing risk from geohazards

FLENTJE, P., MINER, T., STIRLING, D., PALAMAKUMBURE, D. & WINDLE, D. Landslide inventory and susceptibility zoning across SE Australia  

PARRY, S. Landslide hazard assessments: problems and limitations. Examples from Hong Kong  

DI CAPUA, G., PEPPOLONI, S., AMANTI, M., CIPOLLONI, C. & CONTE, G. Site classification map of Italy based on surface geology  

## Geological models for engineering studies

GRIFFITHS, J. S. Incorporating geomorphology in engineering geological ground models
CONTENTS

GOLDSMITH, R. & McCUE, K. Revised hazard assessment for Afulilo Dam, Samoa 169

Interaction of engineering geology and geomechanics

Takahashi, M., Kato, M., Lin, W. & Sato, M. Three-dimensional pore geometry and permeability anisotropy of Berea sandstone under hydrostatic pressure: connecting path and tortuosity data obtained by microfocus X-ray CT 207

MOEIN, F., XUE, J., DENT, B. & MACKAY, R. Review of the historical data characterizing Latrobe Valley brown coal consolidation behaviour 217

Indrawan, I. G. B., Williams, D. J. & Schuermann, A. Effects of saline coal seam gas water on consistency limits, compaction characteristics and hydraulic conductivities of clays used for liners 227

He, L. & WEN, B.-P. Effect of porewater salinity on residual shear strength of clays and their mixtures 239
